

Want to do good, have fun, and make a difference? Become part of the Domus family! There are short- and long-term opportunities for volunteers to become involved, whether it's working with our youth and their families, helping administratively, sharing a talent or skill, or supporting our mission through our facilities maintenance program. To engage with our youth, we encourage regular, sustained volunteering to allow our young people to develop relationships with one or more caring and committed people.

We welcome small and large groups as well as individual volunteers.
