Stamford, CT – On Thursday, November 1, 2018, employees from PwC and Synchrony Financial will swap their business attire for waiters' aprons as they take part in the 19th Annual Domus Diner fundraiser to benefit Domus Kids, Inc., a \$14 million multi-service organization which serves close to 1,400 children and youth in our school, out-of-school, and juvenile justice programs. The event will take place from 7:30 AM until 2:30 PM at the Parkland Diner, 1066 High Ridge Road, in Stamford.

The popular event, which raises tens of thousands of dollars each year, is a great way to kick-off the upcoming season of giving and features delicious food from one of Stamford's most popular dining destinations. Proceeds will benefit Domus' programs including Stamford Academy Charter High School & Trailblazers Academy Charter Middle School, our Work & Learn and after-school programs, our juvenile justice and gang outreach programs, and our residential and re-entry programs for young people ages 18-23 who are transitioning out of group homes, foster care, or prison.

Since 1972, Domus has served children and young people facing many obstacles, including a chronic lack of basic needs, physical and mental abuse, and generational poverty, among others. Our goal for the young people we serve, through our programs and services, is to create the conditions – trust, compassion, guidance, and love – necessary for them to get on a path toward health and opportunity so they can engage and succeed in school and ultimately have satisfying and productive lives. Domus is the only organization in Stamford addressing the needs of young people in this comprehensive manner with the myriad of challenges these young people possess.

[DOMUS KIDS](http://www.domuskids.org) is a Stamford-based nonprofit that supports almost 1,400 vulnerable, high-risk young people to rise above adversity through compassion, understanding, and guidance. Our umbrella initiatives, school, out-of-school, and juvenile justice, serve as the basis for more than a dozen programs which provide children and young people with academic support, social-emotional skill building, and personal and practical connections that help them to navigate critical junctures in their lives, so they may become resilient, positive contributors to their communities.
